**Allowance**

1. Claims 1-5, 8-13, 16 and 22 are allowed.

**Reasons for Allowance**

2. Yuschik et al, U.S. Patent Application Publication No. 2002/0152078 (hereinafter Yuschik) discloses the claimed limitation of adding the request voice signature to the fraudulent voice signature file (see will be stored in case it is needed later from paragraph 0044). However Yuschik falls short of teaching that the request voice signature is added if the fraudulent voice signature file does not comprise the request voice signature. While Seifert, U.S. Patent Application Publication No. 2005/0225430 (hereinafter Seifert) teaches the request voice signature is added if the voice signature file does not comprise the request voice signature (see Duplicate checking from paragraph 0024), nowhere does Seifert show that the voice signature file is a fraudulent voice signature file. Consequently, the combination of Yuschik and Seifert does not show the claimed limitation of adding the request voice signature to the fraudulent voice signature file if the fraudulent voice signature file does not comprise the request voice signature.
